25X1

-2-

The regiment is divided into three battalions, each with a political officer and a Party between. Each battalion has a heavy machine gun company of three efficers and 100 mm, divided into three platoons of three squads each, each squad having a horse-drawn heavy machine gun: a mortar company of three officers and 100 men, divided into three platoons of two squads each, each squad having a mortar; and three rifle companies, each of five officers and 100 to 110 men, divided into three platoons of three squads each.

The heavy companies are motorized, and so is the quartermaster administration.

Motorization of the whole regiment is in progress.
